

Introduction

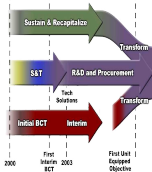

Revolution in Military Logistics

Logistics Transformation
through the RML
is not an option; it's essential.

Force XXI Leads to the Objective Force

The Overarching Vision of Logistics Transformation,
"Leveraging Technology to Fuse New Concepts, Information, and Logistics Systems Reshaping the Way We Project and Sustain America's Forces"

- Rapid Force Projection
- Seamless Logistics System
- Battlefield Distribution
- Business Process Reengineering
- Organizational Redesign

- Platform-Based
- Readiness-Centric
- Global Readiness Model
- Technology Insertion
- Changes In Sustainment Requirements

How We Changed the Div

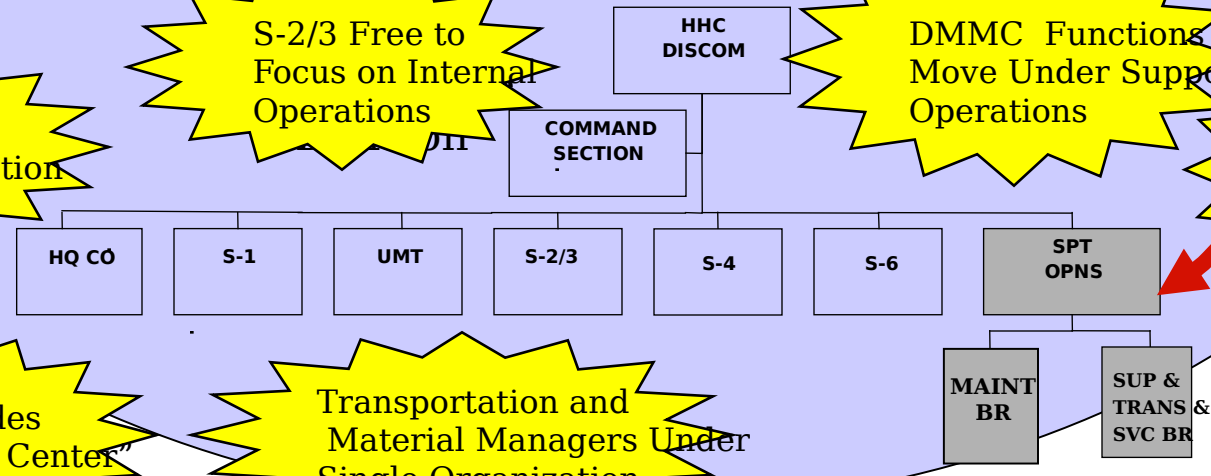

DMMC and Support Operations Consolidated

AOE

FXXI

Implements Battlefield Distribution Concept

S-2/3 Free to Focus on Internal Operations

DMMC Functions Move Under Support Operations

Food Service/DMOC moved to HHC, DIV

DMC Provides "Logistics Fusion Center"

Transportation and Material Managers Under Single Organization

Logistics Initiatives

Revolutionize how we transport and sustain
Aggressively reduce replenishment demand, logistics footprint
Control the number of vehicles deployed
Seek logistics reductions through common platforms, common systems
Invest in a systems approach to weapons and equipment
Leverage reach capabilities and communications

General Eric Shinseki
Chief of Staff

The Objective Force and Beyond . . . Our Target!
